

# BEVI E LASCIA BERE

Have a drink at the Nasone and water thirsty trees! Here is how it's done: Meet your friends at a Nasone for a drink. Bring beverages, glasses, and containers for watering. While chatting and drinking, place a container below the Nasone, so it fills up with water. Once a container is full, one of you takes it to a nearby tree to water it. Take turns and repeat until eventually all trees are watered and everybody is drunk. Have at least one glass of water from the Nasone after each drink in order to avoid a hangover.

Bevi et Lascia Bere (#lasciabere) is a project of Lascia Vivere. Lascia Vivere is an interdisciplinary initiative focusing on ecologically and culturally motivated interventions in the fields of urban planning, horticulture, and art related to urban greenery in Rome. Lascia Vivere was founded by Rome Prize fellows Villa Massimo 2021/22 Something Fantastic (@somethingfantastic\_official) and beekeeper and gardener Erika Mayr (@stadtbienenhonig).
